Bluetooth Feature

Bluetooth enables compatibility with the new i-Pilot system featuring a redesigned remote and reinvented Spot-Lock, the most accurate electronic GPS anchor ever and also extends trolling motor controls to a phone app.

MEGA Down Imaging INSIDE THE MOTOR

— AND OUT OF THE WAY

Messy wiring on an externally mounted transducer doesn't just look bad: the transducer and wires are more susceptible to damage. With Built-In MEGA DI, the transducer is housed in the durable lower unit and all wiring runs through the shaft for a clean, uncluttered look that's protected from the elements.
