HYDRAULIC STEERING KIT

SEASTAR SOLUTIONS

### Hydraulic Steering

HK4200 Hydraulic Steering System for Outboard Powered Boats up to 150 HP  
 \*BayStar is not intended for high speed or performance type boats.  
 BayStar kits include everything needed for an install. The cylinder utilizes the factory drag link for simplified installation.

**3 Easy Steps to order your BayStar system:**

- 1) Check helm dimensions: Standard 5" helm requires 3" hole in dash
- 2) Check cylinder dimensions: Is the splashwell wide enough?  
 Requires 32" splashwell width. 4½ Steering wheel turns, stop to stop.  
 Provides full engine stop movement.
- 3) Is there enough room in the splashwell for full engine tilt?  
 Find the dimension of your splashwell. Check them against the minimum splashwell dimension for full engine tilt for your engine and cylinder.

Mfg #HK-4200A-3  
**Order No. 60046TF** \$959.99

### Cylinder Wrench Kit

Compact design.  
 Fits 4 and 8 hole end glands.

**GoTech Hydraulic Outboard Steering System**  
 Steering solution for pontoon boats and other boats with moderate torque. Designed to handle 4-stroke OB engines up to 115HP. Eliminates steering torque that can occur in some mechanical steering applications.

- Max. HP: 115
- Helm: UP 18 F front mount
- Turns Lock-to-Lock: 4.5
- 30' of nylon tubing
- 2 quarts 15SAE oil
- Warranty: 2 years

Mfg #	Order No.	Retail
GOTECH 1.0	63240 <sub>TF</sub>	\$959.99

**HyTech Hydraulic Outboard Steering System**  
 Features a unique split tilt tube rod for installation of the cylinder without removing the engine. Steering solution for boats with 150HP engines and under. Includes a composite UP20 helm for effortless steering. Applicable for almost all 2 and 4 stroke OB's. Hytech 1.0 is not suitable for Honda BF115 and BF130 engines and Mercury Optimax™ 75, 90, 115. For these engines HyTech 3.0 is available.

- Max. HP: 150
- Helm: UP 20 F front mount
- Turns Lock-to-Lock: 5
- 40' of nylon tubing
- 2 quarts 15SAE oil
- Warranty: 2 years

Mfg #	Order No.	Retail
HYTECH 1.0	63241 <sub>TF</sub>	\$969.99

**ProTech Hydraulic Outboard Steering System**  
 The ProTech is built for longevity and peak performance with a stainless steel helm shaft, heavy duty shaft seals, carbon steel piston, 304 electro polished and passivated stainless link assemblies. Adjustable boss style fittings to allow for easy hose routing.

- Max. HP: 300
- Helm: UP 28 F front mount
- Turns Lock-to-Lock: 4.3
- Hoses sold separately
- 2 quarts 15SAE oil
- Warranty: 2 years

### Zero Torque Tiller Steering System

Locks out the torque while the boat is not actively being steered. Consists of a hydraulic cylinder with a control valve that opens and closes following the operation made on the handle. The valve closes when the steering effort by the driver is stopped; as a consequence the cylinder locks the steering position.

Features:

- Hydraulic torque lockout
- Safer boat handling operations
- Consistent boat direction
- Fatigue reducer
- Does NOT include tiller handle

**TIFLEX**

- Does NOT include Tiller Handle
- 2008 and newer motors

Mfg #	Description	Order No.	Retail

## Xtreme Power Asisst Strong And Durable

This system differs vastly from competitive "electric helm" systems on the market, because it does not increase the load on the mechanical steering helm or cable. Once this system is installed, the mechanical steering cable now only turns the power assist unit, while the electric steering actuator actually turns the engine load. This ensures reliable long-term performance in real-world, on-the-water conditions.

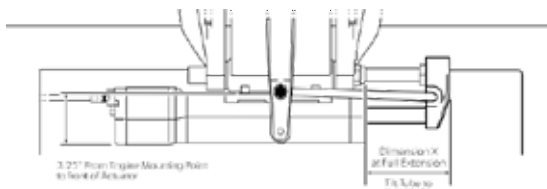

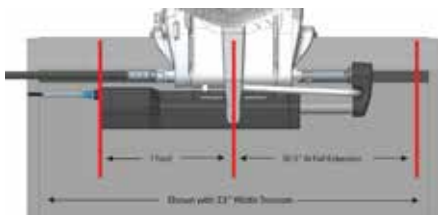

### Key Benefits

- Significantly reduced steering effort provides a car-like driving experience for mechanically steered boats.
- Engineered to fit a wide range of single engine, mechanically steered outboard boats from 90-200HP.
- Integrates with any existing SeaStar rack or rotary cable steering system, so there is no need to install new steering to take advantage of this new technology.
- Designed as a self-contained, plug-and-play system which easily mounts to all major outboard brands and integrates with the boat's existing mechanical steering in less than 30 minutes.
- Built in Fail-safe System automatically reverts to mechanical steering in the event of a system failure.

Mfg #XPA1012P  
Order No. 60065<sup>TW</sup> \$1799.99

### NaviTech Power Steering System

Taking the latest technology from the automotive industry, Ultraflex has combined Electronic Power Steering (EPS) with the latest mechanical steering helms and Mach 90 high efficiency steering cable. EPS Steering offers fingertip steering. M90SS high efficiency cable delivers unprecedented performance. Ideal solution for long cable runs and tight bend applications.

- Tilt mechanism: X66 - 40613M
- Steering Cable Sold Separately
- Automotive steering effort and response
- 10 - 15 Vdc and 8 - 15 A nominal current during steering maneuvers
- Supplied with 10 ft electrical harness. It needs a 40 A fuse (to be ordered separately).
- Works with outboard engines Up to 150 hp, maximum 50 mph, no jackplates

ATTENTION: M90 Nav steering cable is suitable for use also with T71FC, T72FC, T73N-RFC, T81FC, T82FC, T83NRFC, T91, T93ZT, T101, T103ZT. Ultraflex steering helms. M66 will not fit the following Uflex helms: T91, T93ZT, T101, T103ZT.

### Panther XPS Gen 2 Power Steering System

This hybrid steering system combines the durability and dependability of cable steering with the ease of automobile-like power steering. It eliminates the effect of prop torque, allowing for easy maneuvering in tight quarters as well as safe and controlled turns at high speeds.

The Panther XPS System gradually reverts to cable steering in case of failure, you are never without steering!

- Includes 2 quarts of specially formulated, fully synthetic hydraulic fluid.

For optimal performance, the Panther XPS System should be installed on outboard motors from 90 to 250 HP that are equipped with a "feedback" style helm and single cable steering. Installations may be done on boats with a "no-feedback" style helm as well, however the benefits of the Panther XPS Power Steering will be slightly diminished.

### Racktech Steering System

The Racktech Rack and Pinion steering package offers a compact installation and features the M86 cable with an armor wrapped stainless steel core for maximum efficiency and minimal lost motion. Ideal for boats with minimal clearance behind the dash, the Racktech is recommended for power assisted sterndrives and other applications with minimal rudder torque.

**M86 Universal Rack Cable**

The M86 Universal Rack Steering Cable is the one and only cable that directly replaces Uflex, Teleflex SC124 "The Rack" and Morse Command 200 steering cables with no adapters. This cable features solid stainless steel engine output fittings for enhanced longevity and durability. The armor wrapped stainless steel core delivers the ultimate in efficiency with minimal lost motion
